

CONSOLIDATION
KEEPS IT

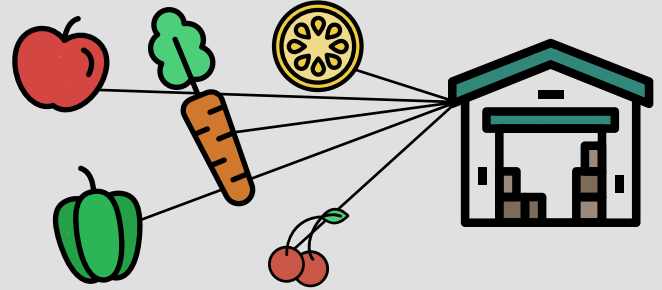

Simple

When you're thinking about freight, the way to save time, effort, and money is by keeping things simple. Consolidation not only streamlines stops and paperwork, but that simplicity translates to longer shelf life, better quality, and freshness!

LESS STOPS = MORE FRESHNESS

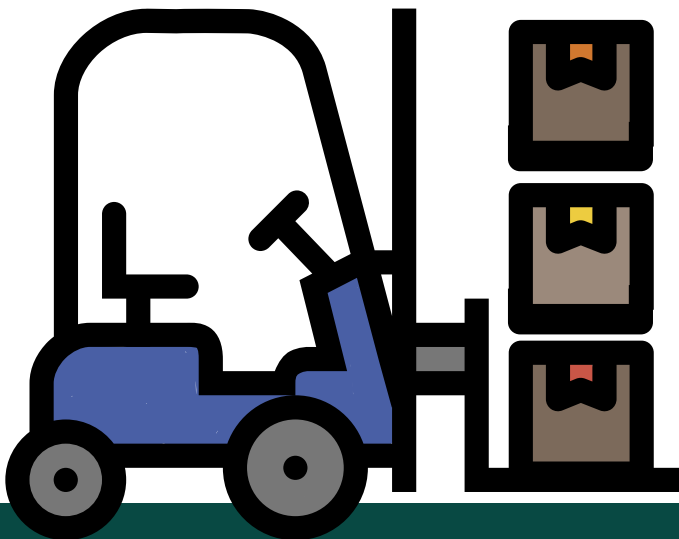

OR

With only one place for all produce to go straight from the field, those fewer stops result in less opening of truck doors and consistent cooling which preserves freshness.
